INTRODUCTION TO THE 1998 UAA FACTBOOK

The availability of timely, reliable and valid measures of the work we perform has enabled us to manage our enrollment and preserve the quality of academic programs and support services, while simultaneously discovering how to do more with less. Over the past three years the Office of Institutional Research has continuously improved the availability and usefulness of institutional data.

Like its predecessors, this year's factbook reflects efforts to improve the usefulness and accuracy of the data contained herein. Significant progress has been made in laying the groundwork for conducting our decennial institutional accreditation self-study. The information contained in this factbook more accurately reflects the reality of our academic programs and the staffing of our schools and colleges. It constitutes the empirical foundation of our self-study. The second round of early retirements necessitates a careful scrutiny of the data to secure a balanced allocation of faculty and staff resources within our limited financial constraints. Replacing vacated positions will be influenced by such measures as faculty-student ratio numbers of majors and degrees, as well as the ratios of part- to full-time faculty. If the data herein is inaccurate, please make the effort to correct the information presented. Similarly, if salient information is missing, please take the time to notify the Office of Institutional Research of the type of information which would provide the appropriate overview of who we are and what we do.

As in prior years, I commend the 1998 FACTBOOK to you and encourage you and your colleagues to review it with care. You will be impressed, as am I, with UAA's continuing accomplishments.

Sincerely,

Edward Lee Gorsuch
Chancellor

1. New definition for first-time freshmen. UAA Admissions office included freshmen with less than 30 cumulative hours, and who were first-time at UAA, in First-time Freshmen. The previous definition included only those students who were freshmen and enrolling in higher education for the first time.

*2. * For the purposes of this report, Special Undergraduate students are defined as students who are non-degree seeking, but pursuing a given program of study associated with a school or college. For instance, students requiring coursework for State of Alaska teacher certification are identified in the College of Health, Education, and Social Welfare as seeking Teacher Certificates, although there is no formal program for such certification. Likewise, WAMI students are not formally admitted to a UAA program of study, but are identified in the Biomedical Program. In addition, there are some students associated with schools/colleges who are identified as special undergraduates in error, and represent inconsistent data.*

*3. ** Not Declared/Other students are those who are not formally admitted to any program of study.*

4. (G) denotes a graduate program.

TIME BLOCK USAGE

The following graphs represent classroom usage for Spring 1997 and charts the number of classes scheduled for each time block. Time block usage is broken down for Monday/Wednesday, Tuesday/Thursday, Friday, and Weekend classes, as well as combined days usage.

For the Spring 1997 semester, there were a total of 68 general classrooms, 10 of which had restrictions as to when classes were allowed to be scheduled into these rooms. All courses have been included in the report, whether a course used the room for one day or the entire semester. Any class using two or more time blocks was counted in each time block the class used. Crossed and stacked courses were counted only once.

2. In the previous year's factbook, the PTE was obtained by dividing the total course credits by 12; this year it has been obtained by dividing by 15.
3. PTE = Part-Time Equivalent.
4. The SCH and CCH generated by a faculty goes to the department in which the course is offered, not to the department to which the faculty member belongs.
5. Instructional activities included in SCH and CCH figures are as follows: lecture, lecture/lab, seminar, lab, practica, research, workshop and distance study.
6. If the CCH has a minimum and a maximum (e.g., a variable credit course), the faculty member is assigned the minimum credit, but the student is assigned the credit for which he/she registered.

6. Fall 1997 Budgeted FTE is obtained from "Budgeted Full-time Equivalent (FTE) of Faculty" (Faculty Table 1, page 119) and part-time PTE is obtained from column F in "Instructional Part-time Equivalent (PTE) of Adjunct Faculty" (Faculty Table 2, page 123).
